City Seeks Input for Stormwater Master Plan

The City of Bonner Springs has contracted with Wilson & Company, Inc., Engineers & Architects, to create a Stormwater Master Plan prioritizing the next twenty years of stormwater improvements.

Resident response to this survey is essential in developing the plan. Follow this link to complete the survey online. The survey is also available in paper format at City Hall or you can download the form on our website and return the completed survey to City Hall.

City Unveils New Street Sweeper

The Public Works Department recently purchased a new Street Sweeper to meet the needs of the City to maintain clean streets. The existing sweeper was retired after 14 years of use. The new Sweeper offers better efficiency and provides the City with better equipment to perform this important work.

In the first hour of use, veteran operator, Don Stovall, swept and dumped 9.5 cubic yards of material off of 3.8 miles of City streets. That computes into an amazing 180,576 square feet swept, with an average of .141 lbs of material per square foot. The new sweeper, with decorative educational wrap, donated by Key Equipment, was unveiled at a City Council Meeting.

City Wide Water Main Flushing

The Bonner Springs Public Works Department Water Services personnel began our annual system wide flushing of water mains in May. Flushing is scheduled for Mondays and Tuesday over the next four weeks.
The department flushes the entire water distribution system throughout the city every year in the spring to clean the interior of the pipes. The department schedules the flushing program prior to the hot summer months when the demand and flows will increase and water quality problems may occur without proper maintenance.

If you see Utility staff opening hydrants in your neighborhood, please avoid water usage during this time, since the flushing will produce colored water during this process.

Notices are mailed to residents advising them of the day that Utility crews will be flushing in your area. In rare cases, the line flushing is delayed due to emergency work which may occur. When this occurs, we reschedule the flushing for a different day and notices are not sent out.

---

**Consumer Confidence Report**

All community public water supply systems are required by federal and state regulations to provide their customers with an annual water quality report which is to be distributed by July 1, 2018. The 2018 Consumer Confidence Report which covers calendar year 2017 is available for viewing on our [website](#).

---

**Morse Avenue Repairs**

Department staff of the Street Maintenance Division have made several temporary repairs on Morse Avenue, which has fallen into severe disrepair.

This street is scheduled for surface rehabilitation later this year, which is sorely needed, as many residents have reported poor driving conditions.

A large waterline break also occurred early this year, where a large asphalt patch was recently completed.

---
